

**PRESS RELEASE
SECOND DAPSI OPEN CALL**

PRESS RELEASE

€2.1 MILLION FUND AND SUPPORTING PROGRAMME TO EMPOWER DATA PORTABILITY INNOVATORS

ARE YOU AN INTERNET INNOVATOR READY TO TACKLE THE DATA PORTABILITY CHALLENGES?

JOIN THE DAPSI PROGRAMME AND GET UP TO €150K, TECHNICAL & BUSINESS SUPPORT, AND ACCESS TO TOP INFRASTRUCTURE

APPLICATIONS ARE OPEN

The Data Portability and Services Incubator (DAPSI) is launching its second Open Call to distribute 2.1 Million Euros to internet innovators, empowering them to develop new solutions in the Data Portability field.

The General Data Protection Regulation (GDPR) has the purpose of making significantly easier for citizens to have any data which is stored with one service provider transmitted directly to another provider. But in most cases, it is still difficult to do so.

DAPSI will support top-notch projects through a 9-month supporting programme where experts in diverse fields will provide a successful working methodology, access to top infrastructure, training in business and data related topics, coaching, mentoring, and a vibrant ecosystem. On top of that, each DAPSI project can receive grants up to €150k.

HOW DOES IT WORK?

In a two-phase supporting programme, the projects will develop advanced solutions in the Data Portability field, attend training sessions, pitch and access top infrastructures, with coaching support. Some of those projects will progress to the second phase where the solutions will be fostered to evolve into solid projects to gain enough traction for deployment and get ready for the market.

JOIN US AT MYDATA ONLINE CONFERENCE, 10 – 12 DECEMBER 2020

DAPSI is proudly sponsoring the MyData Online 2020 conference. MyData purpose is to empower individuals by improving their right to self-determination regarding their personal data, and the event will gather 1000 personal data professionals and people interested in the data economy. DAPSI will be on stage to promote its second open call and the innovators from its first open call Thursday at 15:30 CET and Friday at 9:30 CET, and will have a virtual booth open 24/7 to engage with any participant of the conference.

ARE YOU READY FOR THE DATA PORTABILITY CHALLENGES?

DEADLINE 20 -JANUARY 2021, 12:00 (NOON) CET

NOTE TO EDITORS

The Data Portability and Services Incubator (DAPSI) is a EU funded project, under the European Commission's Next Generation Internet (NGI) initiative, to empower top internet innovators to develop human-centric solutions, addressing the challenge of personal data portability on the internet, as foreseen under the GDPR.

The project is operated by 6 partners: **Zabala Innovation Consulting** (Spain), **F6S** (Ireland), **Cap Digital** (France), **IMT Starter** (France), **Fraunhofer IAIS** (Germany), and **Engineering** (Italy).

Next Generation Internet (NGI) is an EU initiative that aims to shape the development of the Internet into an Internet of humans that responds to people's fundamental needs, including trust, security and inclusion, and reflects the values and the norms that we enjoy in Europe.
