DAPSI will support up to 50 projects that will develop technology solutions and services in the Data Portability field, through a 9-month incubation programme. Experts in diverse domains will provide a successful working methodology, access to top infrastructure, training in business and data related topics, coaching, mentoring, visibility and a vibrant ecosystem. On top of that, each DAPSI project can receive up to €150k\* equity-free funding, distributing a total amount of €5.6M€ through three open calls.

\* This amount is lower in the case of individuals applying as natural persons
